Version 0.9

Modifications:
- The program now only requires the first name, last name, SSN, and all financial information.

Bug Fixes:
- The tab index has been changed to work most conveniently for the user. **With exception to the "Client Search" page.
- Closing service forms using the "Back" button will uncheck the service from the "Services Requested" page.

Version 0.9.1

Modifications:
- The DD 214 "List Box" now accepts files.

Bug Fixes:
- All "Navigation Menu" links now navigate through the program as long as the required information has been entered.
- The "Submit" button at the end of the program is now functional as long as the required information has been entered

Version 0.9.2

Modifications:
- Added Program Icon to each form.
- Forms resizing is now disabled. (This includes maximizing)
- Forms now automatically start at the center of the screen.
- All Sub-forms no longer have window options at the top right, but instead they each contain a programmable "Back" button.
- Initialized auto-tabbing through SSN, the Phone #, and the Date in the "Personal Information" page.

Bug Fixes:
- The "Client Search" page now displays red texts boxes if the user does not enter values into the required spaces. ("Last Name:" & "Last Four of SSN:")

Version 0.9.3

Modifications:
- Added a variety of sizing options.
- Added an "Information" form to show all of the client's information at once.
- Changed Winter and Summer clothing options around.
- Changed from having two separate "Back" and "Submit" buttons on each clothing option category to having one of each on the base of the "Clothing Options" form.
- Changed the options in the "Housing Assistance" form.

Bug Fixes:
- Looking up an existing user after using the program for a different user no longer clears all of the existing user's information.

Version 0.9.4

Modifications:
- Added a Signature Attachment on the "Personal Information" page.
- Removed "Small Appliances" from the "Services Requested" page.

Bug Fixes:
- Added labels for proper identification in the "Clothing" form.
- Allowed the user to input "."s in the "Financial Information" page.

Version 0.9.5

Modifications:
- Added a Message Box to tell the user when the "Submit Button" works if clicked.
- Added pants and dresses for women.

Bug Fixes:
- The Progress Bar shows the user's progress.

Version 0.9.6

Modifications:
- Added functionality with database.
- Added a "Last Visit" value.
- Information form is resizable with a scroll bar.
- Information form can now save some information to a text file (incomplete).

Version 0.9.7

Modifications:
- Added all of the proper information to the text file.

Bug Fixes:
- Female pants now show up on the information form.
- Clothing Items form now has a proper tab index.

Version 0.9.8

Modifications:
- Added the proper information to the text file.

Bug Fixes:
- Unchecking Services will now delete the information in those forms.
