Sprint 1 Presentation

By Andrew Stinson, Maeve McCormack,
Emily Efroymson, Dylan Bakr

Our Team!

Andrew Stinson -- Team Leader, Secondary Programmer

Maeve McCormack -- Website Manager, Canvas Background Designer

Emily Efroymson -- Chief Graphical Designer, Meeting Notetaker

Dylan Bakr -- Chief Programmer (JavaScript, SQL)

Our Client

- "WFYI Public Media empowers, educates, entertains, and connects our community through impactful journalism, inspiring stories and lifelong learning."

- Located downtown Indy only 15 minutes from Butler's campus

- WFYI produces radio, television, movies, and many other types of media production
    - PBS is owned and run by WFYI!

Our Project: Eva's Story

- The main goal of our project is to help maintain and preserve a Holocaust survivor named Eva's story
- She had a profound impact on the world as a leading advocate for justice for those (especially twins) who were tested and abused in these camps
- During her life she impacted many people and helped to bring a first person perspectives to the horrors of concentration camps during WWII
- While she was still alive she helped bring education about that time in history to places around the world, but specifically in Indiana

What are We Doing?

- Make a virtual garden that lives on a WFYI website that allows users to create and plant flowers with a message about how Eva's story has affected them and their lives
  - Make it so other people's flowers are visible to users
- Sharing capability to spread the word about Eva's story and this garden project
- Role this out along with the 75 anniversary of the liberation from auschwitz

Sprint 1 Goals

- Meet with the client several times to discuss Eva's story and what their vision for the project is
  - We really want to be sensitive to the story of Eva and do a great job to preserve her legacy
- Design Epics Website page for this semester
  - Photo, team members and roles, description of project
- Preliminary work on programming basic garden
  - Canvas
  - Graphical flower design
  - Collect user input and put it into a database

Moving Forward (Sprint 2)

- Have a basic prototype by Halloween for our clients
    - User inputs their information and then a dot or icon shows up on the canvas background
- Basic flower design ready to start implementing into the garden
- Meet with WFYI Webmaster to discuss implementation process onto live servers
- Meet with client again and present prototype and discuss goals moving forward into Sprint 3

Eva's Story was made into a documentary in 2017 and is available to watch on Amazon Prime and several other streaming services with the title "*Eva A-7063*"
