

Sprint 2 Presentation

By: Andrew Stinson, Maeve
McCormack, Emily Efroymsen, Dylan
Bakr

Our Team!

Andrew Stinson -- Team Leader, HTML Programmer

Maeve McCormack -- Website Manager, HTML Programmer

Emily Efroyimson -- Chief Graphical Designer (Flowers and website graphics)

Dylan Bakr -- Chief Programmer (JavaScript, SQL)

Our Client

- “WFYI Public Media empowers, educates, entertains, and connects our community through impactful journalism, inspiring stories and lifelong learning.”
- Located downtown Indy only 15 minutes from Butler’s campus
- WFYI produces radio, television, movies, and many other types of media production
 - PBS is owned and run by WFYI!

Our Project: Eva's Story

- Help maintain and preserve a Holocaust survivor named Eva's story
- Impacted many people and helped to bring a first person perspectives to the horrors of concentration camps during WWII
- Helped bring education about that time in history to places around the world, but specifically in Indiana

What is Our End Goal

- Make a virtual garden that lives on a WFYI website that allows users to create and plant flowers with a message about how Eva's story has affected them and their lives
 - Make it so other people's flowers are visible to users
- Sharing capability to spread the word about Eva's story and this garden project
- Roll this out along with the 75 anniversary of the liberation from auschwitz

Prototype Showcase

Sprint 2 Goals

- Create a Prototype by Halloween
 - Working Database and HTML code that displays a flower with a message
- Have Multiple flower designs to present to our clients to get a better Idea of the visuals they are looking for
- Meet with client and present them the prototype
 - Get feedback on the visuals as well as the functionality of our prototype

Specific Challenges we Completed

- Creating Flowers on a canvas
- Creating a text box to be displayed when flower is hovered over
- Creating multiple flower designs

Things we did not complete for Sprint 2

- Connect database to the HTML
- Make the form its own window (not on the canvas)

Moving Forward for Sprint 3

- Improve the functionality of the website
- Improving Visuals of the website
- Incorporating the clients feedback from second meeting
 - Different designs
