BUTLER UNIVERSITY | HEALTH AND WELLNESS CENTER

Healthy Horizons

Sprint 1

Dave, Catherine, Nick, Ryan, Travis, Kenny, Davis

Introduction - Roles

➜ Team Leader:
- ◆ Dave Purdum
➜ Front End Team:
- ◆ Travis Miller
- ◆ Kenny Burton
- ◆ Davis Botta
➜ Back End Team:
- ◆ Catherine Bain
- ◆ Ryan Graham
➜ Webmaster and Statistics Team:
- ◆ Nick Ruddell

Healthy Horizons

The Healthy Horizons program started in 2004 with the purpose of promoting healthy living by providing a comprehensive and confidential wellness package to Butler University faculty and staff. The program assists employees with improving their health, provides ongoing information and health education programs, and helps identify health risks and ways to reduce those risks. Healthy Horizons has a healthy living rewards program for Butler faculty. Participants of this rewards program accumulate points for making healthy life choices. Points are currently tracked and submitted via paper, and we are working on developing a web application to make this program run much more efficiently and hopefully attract more users.

Goals:

- Admin Page w/ login using Auth0

- Fix mobile user interface

- Integrate database with rest of application

- Code needs to be cleaned up

- Instead of 1 time submission we create a calendar and people fill in info each day.
