Healthy Horizons

Sprint 3 Presentation

Dave, Catherine, Nick, Ryan, Travis, Kenny, Davis

About Healthy Horizons:

The Healthy Horizons program started in 2004 with the purpose of promoting healthy living by providing a comprehensive and confidential wellness package to Butler University faculty and staff. The program assists employees with improving their health, provides ongoing information and health education programs, and helps identify health risks and ways to reduce those risks. Healthy Horizons has a healthy living rewards program for Butler faculty. Participants of this rewards program accumulate points for making healthy life choices. Points are currently tracked and submitted via paper, and we are working on developing a web application to make this program run much more efficiently and hopefully attract more users.
